

Creating Media - Digital Printing- Autumn 2

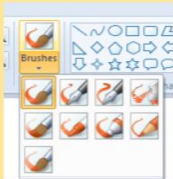

Vocabulary	Word Definition
Save	A command that causes a copy of the document or file to be created.
Undo	To undo the last action you performed in the program. This will allow you to go back to what did previously.
Redo	Redo the last action you performed in the program.
Format	Editing or changing things—text and images.

Questions

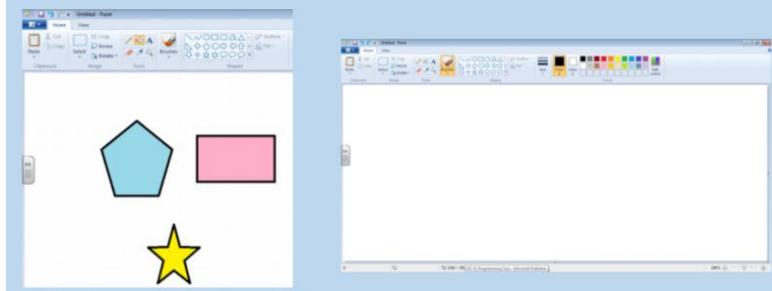

1. Can I make careful choices when painting a digital picture (e.g. appropriate colour choice)?
2. Can I use a range of paint tools to paint in the style of an artist?
3. Can I compare painting a picture on paper and painting a picture on a computer?

Painting using different brushes

- In paint programs there are a selection of different brushes to choose from.
- Each brush stroke looks different.

Creating shapes and using the fill tool to fill them with colour

Wassily Kandinsky
