

EYFS Knowledge Based Organiser Summer 1

Vocabulary

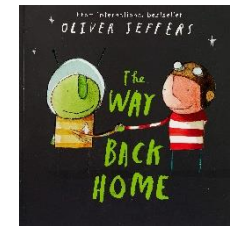

| Vocabulary | Word definition |
|------------------|---|
| Space | The area that contains everything, all the planets, stars and worlds |
| Planets | A large object that travels around the sun, within our galaxy |
| Star | Huge, glowing balls of gas |
| Meteor | A chunk of rock or metal from space that falls through the atmosphere |
| Alien or Martian | A being that comes from somewhere other than the planet earth. |
| Rocket | A flying device, shaped like a tube, that is driven by hot gases released from engines |
| Satellite | A small object that orbits, or revolves around, a larger object in space |
| asteroid | An asteroid is a chunk of rock and metal in outer space that is in orbit around the Sun |
| Comet | A small chunk of dust and ice that orbits, or travels around, the sun. It is sometimes described as a "dirty snowball". |
| Galaxy | A galaxy is a group of stars, clouds of gas, and dust particles that move together through the universe |
| Astronaut | A person who is specially trained to travel into outer space |
