

The ASPIRE Curriculum-Key Learning

Title: Where on Earth are we? Year: 3 Subject: Geography

Key Knowledge

A world map showing the tropics, equator and Prime Meridian

Key Skills

I can use the 8 points of a compass.
I can locate places on maps, globes and atlases.
I can use lines of longitude and latitude

Key Vocabulary

Arctic circle	The Arctic Circle is one of the two polar circles and the most northerly of the five major circles of latitude that mark maps of the Earth.
Antarctic circle	The Antarctic Circle is the most southerly of the five major circles of latitude that mark maps of the Earth.
Compass points	Marks on the dial of a compass that show North, South, East, West, North East, South East, South West, North West.
Equator	An imaginary line/latitude around the centre of the Earth that splits the Earth into the Northern and Southern Hemispheres.
International Date line	A line 180 degrees to Prime Meridian on the other side of the world.
Latitude	Lines of latitude are imaginary parallel lines/circles, horizontal to the Equator that never meet.
Longitude	Lines of longitude are imaginary north to south lines/circles, meeting at the North and South Poles to make segments.
Northern Hemisphere	A section of the Earth that is North of the equator.
Prime Meridian	A line at 0 degrees and divides the Earth into two hemispheres, east and west.
Southern Hemisphere	A section of the Earth that is South of the equator.
Time zone	A time zone is an area of Earth that has a specific time that clocks are set to.

A globe showing lines of latitude and longitude.

A compass
