SAINT JAMES'

Title: How long can our world last? Year: 3 Subject: Geography

Key Knowledge	Key Skills	Key Vocabulary	
<p data-bbox="165 364 726 414"><i>Human Impacts on the Environment</i></p> <div data-bbox="25 421 433 456"><i>Plastic Pollution in the Ocean</i></div>  <div data-bbox="471 421 840 456"><i>Deforestation</i></div>  <div data-bbox="25 635 433 671"><i>Climate change - warmer Earth</i></div>  <div data-bbox="471 635 840 671"><i>Animal extinction</i></div>  <div data-bbox="25 849 433 885"><i>Drought and food shortages</i></div>  <div data-bbox="471 849 840 885"><i>Air pollution</i></div> 	<p>I can use maps and atlases to locate places.</p> <p>I can ask and answer geographical questions.</p> <p>I can explain issues affecting our world.</p> <p>I can understand how I can help to make changes to save our world.</p> <p>I can use the 8 points of the compass when describing the location of places.</p>	climate	weather conditions in general or over time
		conservation	preventing the wasteful use of a resource or area
		mineral	inorganic substance that make up the Earth's rocks, sands and soils
		pollution	putting something into an environment that is poisonous or harmful
		recycle	convert waste into something that can be used again
		renewable	something that can be used over and over, e.g. a natural source of energy such as
		sustainable	maintained or kept at a certain rate
Energy sources			
<p data-bbox="140 1178 331 1199"><i>Non-renewable</i></p> 	<p data-bbox="535 1199 624 1220"><i>Solar</i></p> 	<p data-bbox="802 1199 891 1220"><i>Wind</i></p> 	<p data-bbox="1031 1178 1172 1199"><i>Renewable</i></p> <div data-bbox="980 1199 1223 1342">  <p data-bbox="1057 1299 1146 1328"><i>Hydro</i></p> </div> <div data-bbox="1235 1199 1477 1342">  <p data-bbox="1312 1299 1375 1328"><i>Bio</i></p> </div> <div data-bbox="1490 1199 1732 1342">  <p data-bbox="1567 1299 1630 1328"><i>Tide</i></p> </div>
Greek words we can use			
geo - earth	hydra - water	cycl - circle	bio - life
