<ul style="list-style-type: none"> I know that animals including humans have a life cycle. I know that changes happen when we grow up. I know that people grow up at different rates and that is normal. I know the names of male and female private body parts. I know that there are correct names for private body parts and nicknames, and when to use them. I know which parts of the body are private and that they belong to that person and that nobody has the right to hurt these. I know who to ask for help if I am worried or frightened. I know that learning brings about change. <div data-bbox="50 1149 433 1249" style="background-color: red; color: white; padding: 5px; margin-top: 10px;">Lifecycle of a butterfly</div> 	<ul style="list-style-type: none"> I understand and accept that change is a natural part of getting older. I can identify some things that have changed and some things that have stayed the same since being a baby (including the body). I can express why I enjoy learning. I can suggest ways to manage change e.g., moving to a new class <div style="display: flex; justify-content: space-around; align-items: center;">   </div> <div data-bbox="955 1149 1567 1242" style="background-color: red; color: white; padding: 5px; margin-top: 10px;">We can do different things as we get older.</div>	<p>Anus</p> <p>Lifecycles</p> <p>Mature</p> <p>Penis</p> <p>Testicles</p> <p>Vagina</p> <p>Vulva</p>	<p>The opening where your poo comes out.</p> <p>A series of changes that an animal or plant passes through from the beginning of life to its death.</p> <p>Full grown</p> <p>One part of a boys private parts.</p> <p>Boys have 2 testes in a small sack under the penis.</p> <p>One of the inside parts of a female's private parts.</p> <p>The opening and outside parts of a females private parts.</p>
